ECRA/ESA LICENCE # 7000388

## LICENSED JOURNEYMAN ELECTRICIAN

Bill Snyder Electric Inc. is a progressive, innovative, and highly adaptable electrical contracting company. As an electrical contractor in south-western Ontario for over 20 years, we have completed many projects in a variety of industries. We service many fields and industries through-out Ontario and across Canada and strive for continuous improvement and innovation.

Bill Snyder Electric Inc. strives to provide a work environment which promotes continuous training and employee development within the company.

### TYPICAL DUTIES

Typical duties include, but are not limited to, the preparation and/or modification of the following:

- New electrical construction, mainly commercial and industrial;
- Industrial and Commercial electrical preventive & corrective maintenance;
- Panel changes and service upgrades;
- Lighting retrofits; and
- Attend to service calls as they arise.

### ESSENTIAL FUNCTIONS

Responsibilities include, but are not limited to, the following:

- Ability to work independently and under the direction of a Site Supervisor / Project Manager;
- Ability to communicate with sub-trades, technical resources and clients;
- Ability to work in a schedule-driven environment to meet deadlines, and manage workload; and
- Can work effectively as part of a team, with apprentices, and independently.

### EDUCATION/EXPERIENCE

- Must possess a minimum 3 years of experience in electrical construction, preferably in commercial construction, and industrial electrical maintenance/construction;
- Experience with PLC programming an asset;
- Ability to read schematics, troubleshoot motors & controls without supervision;
- Ability to perform preventive and corrective maintenance on industrial equipment;

### SKILLS AND SPECIAL REQUIREMENTS/LICENSING

- Must hold a valid 309A Electrical License for minimum 3 years;
- Have solid knowledge and understanding of Ontario Electrical Code;
- Hold a valid Canadian driver's license with a good driving record;
- Excellent communication skills, both written and verbal;
- Analytical thinking, innovative problem solving, and independent decision making skills;
- Background screening includes previous employment, education, criminal history and driving record.

### COMPENSATION

- Hourly Wage, negotiable based on qualifications and experience.
- Full benefits package, available after 3 month probationary period.

*We thank all applicants, but only those invited for an interview will be contacted.*
